000E6110		500	0,5	50	0,106	26,11

APPLICATIONS

Mainly used for wet mopping in medium/high dirty floors (in hotels, houses, offices, hospitals, etc).

ECO BOX 📎

ECOLABEL CERTIFIED PRODUCT

Environmental label in compliance with UNI EN ISO 14024 that rewards the best eco friendly products, certifying their low environmental impact throughout their life cycle and qualifying them in the market

ECO-FRIENDLY PRODUCT

100% solar-powered textile production

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Natural fiber mop with high absorbent power
- Made in Italy
- Latex-free product

MATERIAL

Yarn: regenerated cotton waste Support: TNT

CARE AND MAINTENANCE

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener We suggest to use the specific net bags for the mop washing

MAX washing temperature: 50° C

Bleaching possible - Do not use chlorine or bleach

Drying-chamber

Do not dry clean

No tumble drying Do not use softener Use alkaline detergents with Ph < 11

ECO-FRIENDLY PRODUCT

100% solar-powered textile production

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Material extremely resistant, washable, lightweight and low-lint
- It releases the dirt when rinsed and it looks always clean
- It dries up very quickly, it never rots avoiding unpleasant smells or mildew
- It absorbs until 1/3 more than normal cotton yarn mops and permits to save until 1/3 of chemical detergent
- Its performances are very high considering its resistance to aggressive chemicals such as chlorine and hypochlorite
- Made in Italy
- · Latex-free product

MATERIAL

Yarn: polyester and cellulose Support: TNT

ABSORBENCY

about 5 times its weight

CARE AND MAINTENANCE

APPLICATIONS

Mop holder used for wet mopping of surfaces using mops with flaps.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Product suitable to be used with flat microfibers and wet mopping system with wringer (allowed for specific needs)

ECO-FRIENDLY PRODUCT

Product made of separable materials and, consequently, recyclable at the end of its life Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Completely made of shock-proof plastic material
- Just press the red button, the mop holder will close at 180° and the mop will still be hanging, ready for rinsing and wringing operations
- This frame is equipped with two side plastic flaps with hooks used to fix the flat mop head. In order to release completely the dirty flat mop head, just open the side plastic flaps of the mop holder and get the mop away
- It is equipped with an articulated joint for a 360° performance
- Universal screw that allows the use of any kind of handles with diameter from 20 to 24 mm

MATERIAL

Polypropylene and polyamide

SPEEDY MOP HOLDER® - foldable plastic mop holder with Lock System fitting

SPEEDY MOP HOLDER® - plastic foldable mop holder with ErgoSwing fitting

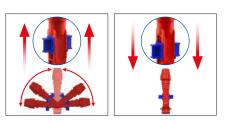

GENERAL PRODUCT SAFETY

The products sold by us do not need a product certification, as they are in compliance with the definition in Legislative Decree 206 of 06.09.2005

DECLARATION OF CONFORMITY

SPEEDY MOP HOLDER® - foldable plastic mop holder with Lock System fitting

REF.	NOTES	NET WEIGHT (kg)	SIZE (cm) ⊥⊥⊥⊥	PCK	VOLUME (m ³)	GROSS WEIGHT (kg)
00008316AB		0,57	40x11	10	0,024	6,1

APPLICATIONS

Speedy frame is used for floor wet mopping, cleaning walls, ceilings and tread-boards.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Product suitable to be used with flat microfibers and wet mopping system with wringer (allowed for specific needs)

ECO-FRIENDLY PRODUCT

Product made of separable materials and, consequently, recyclable at the end of its life Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Made of premium quality material: lightweight, shock-proof and resistant to frequent use
- Universal screw that allows the use of any kind of handles with diameter from 20 to 24 mm
- If the red button on the upper part of the frame is pressed down, the frame will open 180° with the flap mop head still hanging; this operation allows to rinse and wring the flat mop head
- Lock System allows to block the side moviments of the mop holder and it guarantees the maximum adherence to vertical surfaces for better cleaning results. This system can be switched on and off by simply pushing up or down its small lever (locking device) with one's foot, without the use of one's hands and without bending any more

MATERIAL

Polypropylene and polyamide

Ideal for any surface with medium dirt - Mops with colored borders available on request - Contact our offices for minimum quantity

APPLICATIONS

Mainly used for wet mopping in medium/high dirty floors (in hotels, houses, offices, hospitals, etc). Ideal for cleaning corners and walls.

ECO BOX 📎

ECO-FRIENDLY PRODUCT

100% solar-powered textile production

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- The combination of cotton, a natural fiber with a high absorbing level, and polyester, a synthetic fiber very strong and resistant to washings, guarantees a perfect running of the mop on the floor
- Two-hole flaps in order to grant a safer fixing of the mop to the mop holder
- · Looped end yarn grants a longer life of the mop thanks to its special structure and avoids fraying and linting
- Made in Italy
- · Latex-free product

MATERIAL

Yarn: 30% cotton, 70% polyester Support: polyester Flaps: polyurethane (for 40 cm size) - polyester (for 50 cm size)

LIFE CYCLE

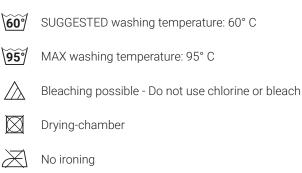

Washable max 250 cycles if washing instructions and warnings are respected

CARE AND MAINTENANCE

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener Always a pre-wash cycle in cold water without detergent to remove any residue of chemical solution We suggest to use the specific net bags for the mop washing

WASHING INSTRUCTIONS

Do not dry clean

Do not use softener Use alkaline detergents with Ph < 11

Reusable Ecolabel (EU) certified microfiber "flat" mop Microfiber denier dTtex \leq 1 for an efficient water and chemical consumption

ECOLABEL CERTIFIED PRODUCT

Environmental label in compliance with UNI EN ISO 14024 that rewards the best eco friendly products, certifying their low environmental impact throughout their life cycle and qualifying them in the market

ECO-FRIENDLY PRODUCT

100% solar-powered textile production Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Tests by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99.9%.
- Innovative wet mopping system: the microfiber yarn holds more dirt than conventional mop heads. More yarn and finer yarn structure
 provides more magnetism and catches more dirt. Its exclusive looped design gets into the grooves and pores reaching edges and
 corners
- Made in Italy
- Latex-free product

MATERIAL

CLEANING SIDE

Microfibre: 80% Microfibre composition: 100% Polyester Microfibre Denier: 0,58 Other fibers: 20% Fibre composition: 100% Polyammide

BACKING Polyester

SYSTEM

Flaps in polyurethane for size 40 cm - in polyester for size 50 cm

ABSORBENCY

The dry mop absorbs up to about 2 times its own weight

LIFE CYCLE

Washable max 350 cycles if washing instructions and warnings are followed

CARE AND MAINTENANCE

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener Always a pre-wash cycle in cold water without detergent to remove any residue of chemical solution We suggest to use the specific net bags for the mop washing

WASHING INSTRUCTIONS

SUGGESTED washing temperature: 60° C

MAX washing temperature: 95° C

Bleaching possible - Do not use chlorine or bleach

Mechanical drying at low temperature 50°C

XNo ironing

Do not dry clean

Do not use softener Use alkaline detergents with Ph < 11

Ideal for industrial floors, single-fired tiles, stoneware and woods with a medium degree of dirt

APPLICATIONS

Used with mop holder for dusting, wet mopping, waxing and disinfection of smooth internal floors (hotels, houses, offices, hospitals) with medium degree of dirt.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Reusable Ecolabel (EU) certified microfiber "flat" mop Microfiber denier dTtex \leq 1 for an efficient water and chemical consumption

ECOLABEL CERTIFIED PRODUCT

Environmental label in compliance with UNI EN ISO 14024 that rewards the best eco friendly products, certifying their low environmental impact throughout their life cycle and qualifying them in the market

ECO-FRIENDLY PRODUCT

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Tests carried out by an independent external laboratory according to UNI EN 16615:2015 show that the mop, when used wet, can remove the bacteria Staphylococcus aureus ATCC 6538, Pseudomonas aeruginosa ATCC15442 and Enterococcus hirae ATCC 10541 with a reduction capacity of 96.6%.
- Tests by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99.9%.
- Thanks to a particular twisting process, this twisted yarn keeps its shape even after many washing cycles with low linting
- It removes easily the dirt without friction on the floor; high absorbing capacity thanks to its composition
- Two-hole flaps in order to grant a safer fixing of the mop to the mop holder
- · Latex-free product

Environmental label in compliance with UNI EN ISO 14024 that rewards the best eco friendly products, certifying their low environmental impact throughout their life cycle and qualifying them in the market

ECO-FRIENDLY PRODUCT

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

LOW ENVIRONMENTAL IMPACT PRODUCT

The product passed the test for microplastic release during washing and rinsing, carried out according to ISO 4484-1 and 4484-2 by an independent laboratory

FEATURES

- Polypropylene fibers guarantee a better removal of the tough dirt, while microfiber holds the dirt and grants an easy and quick cleaning
- Thanks to a particular twisting process, this twisted yarn keeps its shape even after many washing cycles with low linting
- Two-hole flaps in order to grant a safer fixing of the mop to the mop holder
- · High absorbing capacity thanks to its composition
- · Latex-free product

MATERIAL

CLEANING SIDE

Microfibre: 70% Microfibre composition: 71% Polyester - 29% Polyammide Microfibre Denier: 0,14 Other fibers: 30% Fibre composition: 100% Polypropylene Fabric weight: 730 gr/sqm

BACKING

Polyester

SYSTEM Polyurethane flaps

Polyurethane haps

ABSORBENCY

A dry mop absorbs up to twice its own weight

COVERING POWER

The mop can cover about 50-55 m²

LIFE CYCLE

Can be washed max 400 cycles if washing instructions and warnings are followed

CARE AND MAINTENANCE

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener Always a pre-wash cycle in cold water without detergent to remove any residue of chemical solution We suggest to use the specific net bags for the mop washing

WASHING INSTRUCTIONS

60%

SUGGESTED washing temperature: 60° C

 $\sqrt[7]{}$ MAX washing temperature: 95° C

Bleaching possible - Do not use chlorine or bleach

Mechanical drying at low temperature 50°C

Do not dry clean

Do not use softener Use alkaline detergents with Ph < 11

DECLARATION OF CONFORMITY

SPEEDY PULI-BRUSH ultra-microfiber and polypropylene mop, polyester backing, with 2-hole flaps and colour-coded tag

REF.	NOTES	WEIGHT (gr)	NET WEIGHT (kg)	SIZE (cm)	PCK	VOLUME (m ³)	GROSS WEIGHT (kg)
0EPN0418C00A	for 40 x 11 cm mop holders	135	0,135	40x13	25	0,019	3,71
0EPN0418C00B	for 40 x 11 cm mop holders	135	0,135	40x13	25	0,019	3,71

Ideal for scrubbing and washing non-slip surfaces and natural terracotta with a high degree of dirt, characterized by stubborn dirt

APPLICATIONS

Mainly used for the wet mopping of medium/high dirty interior floors (in hotels, houses, offices, hospitals, etc). Ideal for all non-slip floors. Ideal for cleaning corners and walls.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Reusable Ecolabel (EU) certified microfiber "flat" mop Microfiber denier dTtex \leq 1 for an efficient water and chemical consumption

ECOLABEL CERTIFIED PRODUCT

Environmental label in compliance with UNI EN ISO 14024 that rewards the best eco friendly products, certifying their low environmental impact throughout their life cycle and qualifying them in the market

ECO-FRIENDLY PRODUCT

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- The polypropylene inserts quickly loosen even the most stubborn dirt, which is then captured by the microfibre, releasing it only in the washing phase
- It offers high performance without sacrificing smoothness: the mop glides over the surface, leaving it perfectly clean
- Two-hole flaps in order to grant a safer fixing of the mop to the mop holder
- Latex-free product

FEATURES

- Tests by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99.7%.
- The microfiber is a synthetic fiber which penetrates deeply into the grooves and pores of floors, captures and removes dust without scratching and retains dirt until its release in the washing machine
- The cleaning action and the long life cycle of microfiber guarantee optimal savings keeping high cleaning standards
- The high absorbency due to its capillary action guarantees a great floor covering, a fast floor drying and less stains
- · Used with disinfection systems it removes most of germs and bacteria
- Nylon inserts reduce friction on the floor, provide maximum sliding effect and therefore less effort for the operator
- Optimal dirt release during rinsing
- Two-hole flaps in order to grant a safer fixing of the mop to the mop holder
- Made in Italy
- Latex-free product

DECLARATION OF CONFORMITY

Foldable plastic mop holder

REF.	NOTES	NET WEIGHT (kg)	SIZE (cm)	PCK	VOLUME (m ³)	GROSS WEIGHT (kg)
8115U	completely grey	0,432	42x9	10	0,019	4,66
8132AB		0,354	40x11	10	0,023	3,93
8130AB		0,546	50x13	10	0,035	б

APPLICATIONS

It can be used with all disinfection mop heads with pockets.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Product suitable to be used with flat microfibers and wet mopping system based on pre-soaking or soaking "on demand" on the trolley

ECO-FRIENDLY PRODUCT

Product made of separable materials and, consequently, recyclable at the end of its life Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Completely made of plastic material
- The red button on the upper part of the frame, if pressed down, allows a 90° opening of the frame and makes easier the release of the mop head without using the hands
- Universal screw that allows the use of any kind of handles with diameter from 20 to 24 mm
- · Special shaped mop holder in order to make the insert of the mop easier

MATERIAL

Polyamide and polypropylene copolymer

APPLICATIONS

Mop used for floor disinfection.

ECO BOX 🎾

ECO-FRIENDLY PRODUCT

100% solar-powered textile production Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environ-mental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- The combination of cotton, a natural fiber with a high absorbing level, and polyester, a synthetic fiber very strong and resistant to washings, guarantees a perfect running of the mop on the floor
- Bordered pockets to easily insert the mop holder into the mop
- · Looped end yarn grants a longer life of the mop thanks to its special structure and avoids fraying and linting
- Made in Italy
- · Latex-free product

MATERIAL

Yarn: 30% cotton, 70% polyester Support: polyester Pockets: polyester

LIFE CYCLE

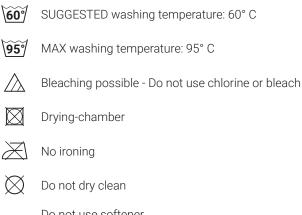

Washable max 250 cycles if washing instructions and warnings are respected

CARE AND MAINTENANCE

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener Always a pre-wash cycle in cold water without detergent to remove any residue of chemical solution We suggest to use the specific net bags for the mop washing

WASHING INSTRUCTIONS

Do not use softener Use alkaline detergents with Ph < 11

The code 0000311D has passed the test on the release of microplastics during washing and rinsing, carried out according to the ISO 23231 standard by an independent laboratory

FEATURES

- Tests by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99.9%.
- Microfiber yarn releases dirt easier. A higher number of micro-yarns provides higher magnetism and catches more dirt than any traditional mops
- · Bordered pockets to easily insert the mop holder into the mop
- Made in Italy
- · Latex-free product

MATERIAL

CLEANING SIDE Microfibre: 80% Microfibre composition: 100% Polyester Microfibre Denier: 0,58 Other fibers: 20% Fibre composition: 100% Polyammide

BACKING Polyester

100% solar-powered textile production Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Innovative wet mopping system thanks to the combination of three different textile yarns: microfibre, cotton and polyester. The structure of these three yarns assures maximum results in cleaning.
- Thanks to its structure, microfibre multiplies the amount of yarns, which come in contact with the floor. Consequently the capacity to pick up dirt is much more higher than normal systems
- · Cotton improves the mop absorbancy and increases the cleaning surface
- Polyester yarn makes the cloths slide on the floor
- · Looped end yarn grants a longer life of the mop thanks to its special structure and avoids fraying and linting
- Bordered pockets to easily insert the mop holder into the mop
- Made in Italy
- Latex-free product

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Reusable microfiber "flat" mop Microfiber denier dTtex \leq 1 for an efficient water and chemical consumption

ECO-FRIENDLY PRODUCT

100% solar-powered textile production Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Tests by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99.7%.
- The microfiber is a synthetic fiber which penetrates deeply into the grooves and pores of floors, captures and removes dust without scratching and retains dirt until its release in the washing machine
- The cleaning action and the long life cycle of microfiber guarantee optimal savings keeping high cleaning standards
- The high absorbency due to its capillary action guarantees a great floor covering, a fast floor drying and less stains
- · Used with disinfection systems it removes most of germs and bacteria
- Nylon inserts reduce friction on the floor, provide maximum sliding effect and therefore less effort for the operator
- Optimal dirt release during rinsing
- · Bordered pockets to easily insert the mop holder into the mop
- Made in Italy
- Latex-free product

Ideal for industrial surfaces, single-fired tiles and stoneware with a low degree of dirt

APPLICATIONS

Ideal for dusting, wet mopping and disinfection. To use with foldable mop holders for pocket mops and with Uniko mop holder.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Reusable microfiber "flat" mop Microfiber denier dTtex \leq 1 for an efficient water and chemical consumption

ECO-FRIENDLY PRODUCT

100% solar-powered textile production

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- The microfiber is a synthetic fiber which penetrates deeply into the grooves and pores of floors, captures and removes dust without scratching and retains dirt until its release in the washing machine
- The cleaning action and the long life cycle of microfiber guarantee optimal savings keeping high cleaning standards
- The high absorbency due to its capillary action guarantees a great floor covering, a fast floor drying and less stains
- Used with disinfection systems it removes most of germs and bacteria
- · Its specific composition offers a perfect balance between cleaning capacity and mop friction
- Bordered pockets to easily insert the mop holder into the mop
- Made in Italy
- Latex-free product

MATERIAL

ECO-FRIENDLY PRODUCT

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Tests carried out by an independent external laboratory according to UNI EN 16615:2015 show that the mop, used wet, can remove the bacteria Staphylococcus aureus ATCC 6538, Pseudomonas aeruginosa ATCC15442 and Enterococcus hirae ATCC 10541 with a reduction capacity of 94.2%.
- Tests carried out by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99%.
- · The cleaning layer guarantees a high capacity to remove germs and bacteria
- Removes and traps dirt
- Less friction on the floor, reduced effort
- · High absorbing power and long washing autonomy

MATERIAL

100% polyester microfiber Decitex = 0,57 Fabric weight: 195 gr/mq

ABSORBENCY

The mop absorbs up to three times its own weight

0000TP0005AU		0,59	50x13	10	0,035	6,46

APPLICATIONS

Mop holder especially designed for floor cleaning either with mops with flaps or with pocket mops

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Product suitable to be used with flat microfibers and wet mopping system based either on pre-soaking or soaking "on demand" on the trolley or a system with wringer (allowed for specific needs)

ECO-FRIENDLY PRODUCT

Product made of separable materials and, consequently, recyclable at the end of its life Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- · Special shaped mop holder in order to make the insert of the mop easier
- To rinse and wring the mop with flaps, just push the red button with your foot: the frame will close to 180° and the mop will be hanging from the mop holder
- Just open the side flaps to release the mop
- · Universal screw that allows the use of any kind of handles with diameter from 20 to 24 mm
- It is equipped with an articulated joint for a 360° performance

MATERIAL

Polypropylene and polyamide

Cotton mop with pockets and flaps, polyester backing, looped yarn inside and cut yarn outside

MASTER-TUFT - cotton mop, polyester backing, tufting, cut outside, with pockets and flaps

RAPIDO - microfiber mop, polyester backing, looped yarn, with pockets and flaps

DREI-TUFT - microfiber, cotton and polyester mop, polyester backing, tufting, cut outside, with pockets and flaps, colour-coded tag

ACTIVE-FUR - microfiber mop with nylon inserts, polyester backing, pockets and flaps, colour-coded tags

APPLICATIONS

Mop holder especially designed for floor cleaning either with mops with flaps or with pocket mops The new "Lock System" joint allows to clean also walls and ceilings very easily.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Product suitable to be used with flat microfibers and wet mopping system based either on pre-soaking or soaking "on demand" on the trolley or a system with wringer (allowed for specific needs)

ECO-FRIENDLY PRODUCT

Product made of separable materials and, consequently, recyclable at the end of its life Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- · Special shaped mop holder in order to make the insert of the mop easier
- To rinse and wring out the mop with flaps, simply press the button with your foot, the mop holder will close 180° and the mop will remain attached to the mop holder
- Just open the side flaps to release the mop
- Uni-Connect system that allows you to quickly and easily connect the same handle to any cleaning tool, quickly switching from one tool to another (mop holder, window squeegee, duster...)
- Lock System allows to block the side moviments of the mop holder and it guarantees the maximum adherence to vertical surfaces for better cleaning results. This system can be switched on and off by simply pushing up or down its small lever (locking device) with one's foot, without the use of one's hands and without bending any more
- · Jointed articulation for full 360° rotation allowing easy access even to hard-to-reach areas
- Can be used with any 23 mm diameter handle with hole

MATERIAL

Polypropylene, polyamide and acetal resin

Cotton mop with pockets and flaps, polyester backing, looped yarn inside and cut yarn outside

Ideal for any surface with medium dirt

APPLICATIONS

Mainly used for wet mopping of medium dirty floors (in hotels, houses, offices, hospitals, etc). To use with mop holders for pocket mops and with Uniko mop holder, not fitting the Speedy[®] mop holder.

ECO BOX 📎

ECO-FRIENDLY PRODUCT

100% solar-powered textile production Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Natural highly absorbing fiber that keeps dirt, releasing it only during the washing of the mop
- Both pockets and flaps allow to use two different wet mopping systems
- The inside looped end yarn grants a longer life of the mop: its yarn structure prevents from mop wearing, mop fraying and linting
- · Cut yarn outside to avoid yarn getting caught in any obstacle in the cleaning area
- · Latex-free product
- Made in Italy

MATERIAL

Yarn: 70% cotton 30% polyester Support: polyester Pockets: polyester Flaps: polyester

LIFE CYCLE

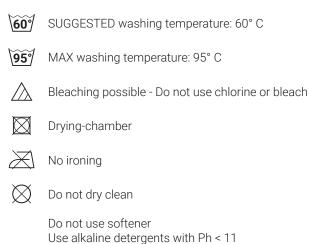

Washable max 250 cycles if washing instructions and warnings are respected

CARE AND MAINTENANCE

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener Always a pre-wash cycle in cold water without detergent to remove any residue of chemical solution We suggest to use the specific net bags for the mop washing

Ideal for industrial surfaces, single-fired tiles and stoneware with a low degree of dirt

APPLICATIONS

Ideal for dusting, wet mopping and disinfection. To use with foldable mop holders for pocket mops and with Uniko mop holder. Not suitable for Speedy® mop holders.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Reusable microfiber "flat" mop Microfiber denier dTtex \leq 1 for an efficient water and chemical consumption

ECO-FRIENDLY PRODUCT

100% solar-powered textile production

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- The microfiber is a synthetic fiber which penetrates deeply into the grooves and pores of floors, captures and removes dust without scratching and retains dirt until its release in the washing machine
- The cleaning action and the long life cycle of microfiber guarantee optimal savings keeping high cleaning standards
- The high absorbency due to its capillary action guarantees a great floor covering, a fast floor drying and less stains
- Used with disinfection systems it removes most of germs and bacteria
- · Its specific composition offers a perfect balance between cleaning capacity and mop friction
- · Both pockets and flaps allow to use two different wet mopping system
- Made in Italy
- Latex-free product

MATERIAL

CLEANING SIDE

Microfibre: 60% Microfibre composition: 100% Polyester Microfibre Denier: 0,56 Other fibers: 40% Fibre composition: 100% Polyester Fabric weight: White fabric 500 gr/sqm - Gray fabric 480 gr/sqm

BACKING

Polyester

SYSTEM Polyester pockets and flaps

ABSORBENCY

A dry mop absorbs up to twice its own weight

COVERING POWER

The mop can cover about: $40-45 \text{ m}^2$ in the 40 cm size $45-50 \text{ m}^2$ in the 50 cm size

LIFE CYCLE

Can be washed max 400 cycles if washing instructions and warnings are followed

CARE AND MAINTENANCE

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener Always a pre-wash cycle in cold water without detergent to remove any residue of chemical solution We suggest to use the specific net bags for the mop washing

WASHING INSTRUCTIONS

Bleaching possible - Do not use chlorine or bleach

Mechanical drying at low temperature 50°C

No ironing

Do not dry clean

Do not use softener Use alkaline detergents with Ph < 11

Foldable plastic mop holder with pockets and flaps

Foldable plastic mop holder for mops with pockets and flaps, with Uni-Connect fitting and cone and Lock System

PUNTO - plastic wringer with adjustable roll

BOOST - plastic flat wringer

DEEP - plastic side press wringer without bottom

 $\textbf{TOP-DOWN}^{\texttt{o}}$ 20 It - plastic bucket with plastic handle and hermetic cover

GENERAL PRODUCT SAFETY

The products sold by us do not need a product certification, as they are in compliance with the definition in Legislative Decree 206 of 06.09.2005

DECLARATION OF CONFORMITY

Mop holder with strips 2,5 cm for strap tape system

- The ErgoSwing system has been designed to accommodate movement in an S-shape, resulting in less fatigue and higher productivity
- · Characterized by low friction, it ensures the utmost adherence to the floor
- The trapezoidal shape means they easily get into every corner and all those other hard-to-reach areas for a thorough clean
- Plastic corner bumpers protect walls and furniture
- Articulated joint for a 360° performance that allows you to easily clean hard-to-reach surfaces
- The 2,5 cm strap tapes guarantee a total adherence of the mop holder to the mop for better cleaning results. Easily replaceable.

GENERAL PRODUCT SAFETY

The products sold by us do not need a product certification, as they are in compliance with the definition in Legislative Decree 206 of 06.09.2005

DECLARATION OF CONFORMITY

Aluminium mop holder with strips for strap tape system, with Uni-Connect fitting and cone and Lock System

REF.	NOTES	NET WEIGHT (kg)	SIZE (cm)	PCK	VOLUME (m ³)	GROSS WEIGHT (kg)
0000TA1840A		0,357	40	12	0,018	4,63
0000TA1860A		0,467	60	12	0,028	6,12

APPLICATIONS

Mop holder to be used with mop heads with strap tape system for cleaning and disinfection of floors, with abrasive fibres for removing any incrustations and with sponge and relative disposable soaked cloths for damp mopping.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Product suitable to be used with flat microfibers and wet mopping system based on pre-soaking or soaking "on demand" on the trolley

ECO-FRIENDLY PRODUCT

Product made of separable materials and, consequently, recyclable at the end of its life Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Product made of high-quality, light, rust-proof material, resistant to frequent use
- Characterized by low friction, it ensures the utmost adherence to the floor
- The trapezoidal shape means they easily get into every corner and all those other hard-to-reach areas for a thorough clean
- Plastic corner bumpers protect walls and furniture
- Uni-Connect system that allows you to quickly and easily connect the same handle to any cleaning tool, quickly switching from one tool to another (mop holder, window squeegee, duster...)
- Lock System allows to block the side moviments of the mop holder and it guarantees the maximum adherence to vertical surfaces for better cleaning results. This system can be switched on and off by simply pushing up or down its small lever (locking device) with one's foot, without the use of one's hands and without bending any more
- · Jointed articulation for full 360° rotation allowing easy access even to hard-to-reach areas
- The 2,5 cm strap tapes guarantee a total adherence of the mop holder to the mop for better cleaning results. Easily replaceable.
- Can be used with any 23 mm diameter handle with hole

ECO-FRIENDLY PRODUCT

100% solar-powered textile production Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Innovative wet mopping system thanks to the combination of three different textile yarns: microfibre, cotton and polyester. The structure of these three yarns assures maximum results in cleaning.
- Thanks to its structure, microfibre multiplies the amount of yarns, which come in contact with the floor. Consequently the capacity to pick up dirt is much more higher than normal systems
- · Cotton improves the mop absorbancy and increases the cleaning surface
- Polyester yarn makes the cloths slide on the floor
- The structure of these three yarns assures maximum results in cleaning
- · Looped end yarn grants a longer life of the mop thanks to its special structure and avoids fraying and linting
- Support for strap tape system: it is an innovative unshrinkable material which is non-linting and does not fade keeping its characteristics unaltered
- Made in Italy
- Latex-free product

MATERIAL

Yarn: 70% polyester 30% cotton Backing: backing for strap tape system

LIFE CYCLE

Washable max 250 cycles if washing instructions and warnings are respected

CARE AND MAINTENANCE

WARNINGS

Ideal for industrial floors, natural stones, single-fired tiles and stoneware with a medium-high degree of dirt

APPLICATIONS

It is indicated for the washing/disinfection of floors with a medium/high degree of dirt. Suggested for cleaning inside floors (hotels, houses, offices, hospitals etc.).

ECO BOX 🎾

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Reusable Ecolabel (EU) certified microfiber "flat" mop Microfiber denier $dTtex \le 1$ for an efficient water and chemical consumption

ECOLABEL CERTIFIED PRODUCT

Environmental label in compliance with UNI EN ISO 14024 that rewards the best eco friendly products, certifying their low environmental impact throughout their life cycle and qualifying them in the market

ECO-FRIENDLY PRODUCT

100% solar-powered textile production

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environ-mental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

LOW ENVIRONMENTAL IMPACT PRODUCT

The code 00PN0423A00DA has passed the test on the release of microplastics during washing and rinsing, carried out according to the ISO 23231 standard by an independent laboratory

FEATURES

- Tests by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99.9%.
- Thanks to its structure, the microfiber absorbs more due to its yarn capillarity and it covers a wider cleaning area
- Thanks to a special twisting process, this yarn keeps its shape and structure even after many washing cycles with low linting
- Support for strap tape system: it is an innovative unshrinkable material which is non-linting and does not fade keeping its characteristics unaltered
- Made in Italy
- Latex-free product

MATERIAL

CLEANING SIDE

Microfibre: 100% Microfibre composition: 80% Polyester - 20% Polyammide Microfibre Denier: 0,28

SYSTEM

Strap tape in polyammide

ABSORBENCY

Dry mop absorbs up to 3 times its own weight

LIFE CYCLE

Washable max 500 cycles if washing instructions and warnings are respected

CARE AND MAINTENANCE

WARNINGS

In order to guarantee the high performance of the microfiber it is necessary to perform at least 2 washes before using it Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener Always pre-wash in cold water without detergent to remove residues of the chemical product used We suggest to use the specific net bags for the mop washing

0000214FF		90	0,09	40x10	25	0,015	2,44

Ideal for industrial floors, natural stones, single-fired tiles and stoneware with a medium-high degree of dirt

APPLICATIONS

Mainly used for wet mopping and disinfection of medium dirty floors. Suggested for cleaning inside floors (hotels, houses, offices, hospitals etc.).

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Reusable microfiber "flat" mop Microfiber denier dTtex \leq 1 for an efficient water and chemical consumption

ECO-FRIENDLY PRODUCT

100% solar-powered textile production

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Tests by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99.9%.
- Thanks to a special twisting process, this yarn keeps its shape and structure even after many washing cycles with low linting
- · Thanks to its structure, the microfiber absorbs more due to its yarn capillarity and it covers a wider cleaning area
- Support for strap tape system: it is an innovative unshrinkable material which is non-linting and does not fade keeping its characteristics unaltered
- Made in Italy
- Latex-free product

MATERIAL

CLEANING SIDE Microfibre. 100% Microfibre composition. 100% Polyester Microfibre Denier. 0,58

SYSTEM

Strap tape in polyammide

ABSORBENCY

The dry mop absorbs up to about 2 times its own weight

LIFE CYCLE

Washable max 350 cycles if washing instructions and warnings are followed

CARE AND MAINTENANCE

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener Always a pre-wash cycle in cold water without detergent to remove any residue of chemical solution We suggest to use the specific net bags for the mop washing

WASHING INSTRUCTIONS

0 ♥ SUGGESTED washing temperature: 60° C

MAX washing temperature: 95° C

 \wedge

Mechanical drying at low temperature 50°C

Bleaching possible - Do not use chlorine or bleach

 \bigotimes

Do not dry clean

Do not use softener Use alkaline detergents with Ph < 11

LOW ENVIRONMENTAL IMPACT PRODUCT

The code 000EPN03012 has passed the test on the release of microplastics during washing and rinsing, carried out according to the ISO 23231 standard by an independent laboratory

FEATURES

- Tests carried out by an independent external laboratory according to UNI EN 16615:2015 show that the mop, used wet, can remove the bacteria Staphylococcus aureus ATCC 6538, Pseudomonas aeruginosa ATCC15442 and Enterococcus hirae ATCC 10541 with a reduction capacity of 96.6%.
- Tests by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99.9%.
- Thanks to a particular twisting process, this twisted yarn keeps its shape even after many washing cycles with low linting
- It removes easily the dirt without friction on the floor; high absorbing capacity thanks to its composition
- Latex-free product

MATERIAL

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Reusable Ecolabel (EU) certified microfiber "flat" mop Microfiber denier dTtex \leq 1 for an efficient water and chemical consumption

ECOLABEL CERTIFIED PRODUCT

Environmental label in compliance with UNI EN ISO 14024 that rewards the best eco friendly products, certifying their low environmental impact throughout their life cycle and qualifying them in the market

ECO-FRIENDLY PRODUCT

100% solar-powered textile production

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

LOW ENVIRONMENTAL IMPACT PRODUCT

The product has passed the test on the release of microplastics during washing and rinsing, carried out according to the ISO 23231 standard by an independent laboratory

FEATURES

- Thick fabric for a better distribution of chemicals, guaranteeing excellent absorbance and low mop friction
- · Thanks to its structure, the microfiber absorbs more due to its yarn capillarity and it covers a wider cleaning area
- Special yarn processing system which fastens the yarn to the backing, guaranteeing a long life of the mop.
- The looped end yarn grants a longer life of the mop head: non-fraying and -linting possibility
- Made in Italy
- Latex-free product

MATERIAL

CLEANING SIDE Microfibre: 100% Microfibre composition: 80% Polyester - 20% Polyammide Microfibre Denier: 0,28

SYSTEM

Strap tape in polyester

ABSORBENCY

The dry mop absorbs up to about 2 times its own weight

LIFE CYCLE

Washable max 500 cycles if washing instructions and warnings are respected

CARE AND MAINTENANCE

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener Always a pre-wash cycle in cold water without detergent to remove any residue of chemical solution We suggest to use the specific net bags for the mop washing

WASHING INSTRUCTIONS

60° SUGGESTED washing temperature: 60° C

Bleaching possible - Do not use chlorine or bleach $/ \Lambda$

Mechanical drying at low temperature 50°C

No ironing

 \bigotimes Do not dry clean

> Do not use softener Use alkaline detergents with Ph < 11

Ideal for light scrubbing and washing of industrial, single-fired floors, stoneware and wood floors with a medium degree of dirt. The shock-absorbing border guarantees a better protection for and against baseboards and walls.

APPLICATIONS

Ideal for light scrubbing and wet mopping of floors. To use with all mop holders with strips for strap tape system

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Reusable microfiber "flat" mop Microfiber denier dTtex ≤ 1 for an efficient water and chemical consumption

ECO-FRIENDLY PRODUCT

100% solar-powered textile production Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Tests by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99.7%.
- The microfiber is a synthetic fiber which penetrates deeply into the grooves and pores of floors, captures and removes dust without scratching and retains dirt until its release in the washing machine
- The cleaning action and the long life cycle of microfiber guarantee optimal savings keeping high cleaning standards
- The high absorbency due to its capillary action guarantees a great floor covering, a fast floor drying and less stains
- Used with disinfection systems it removes most of germs and bacteria
- Nylon inserts reduce friction with the floor and ensure greater sliding effect and therefore less effort for the operator
- Optimal dirt release during rinsing
- The shock-absorbing border guarantees a better protection for baseboards and walls
- Made in Italy
- · Latex-free product

Fitting mop holders with strap tape system and disposable cloths

APPLICATIONS

Suitable for mop holders with strap tape system for the cleaning and disinfection of floors with disposable cloth.

ECO BOX 📎

ECO-FRIENDLY PRODUCT

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- It adheres quickly to the mop holder with strap tape system and to the disposable cloth, keeping it tight during the cleaning operations
- It increases the cleaning surface of the mop adhering to the floor with considerable advantages in terms of time and collection of dirt.
- · It increases the softness of this cleaning system, ideal to clean also the most delicate surfaces
- Thanks to its trapezoidal shape it is possible to clean corners and hard-to-reach areas
- It doesn't abosorb water, preventing the growth of bacteria usually caused by humidity

Mop holder for the wet mopping of floors by using mops with micro flaps.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Universal product suitable to be used with flat microfibers and wet mopping system based either on pre-soaking or soaking "on demand" on the trolley or a system with wringer (allowed for specific needs)

ECO-FRIENDLY PRODUCT

Product made of separable materials and, consequently, recyclable at the end of its life Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- · Completely made of shock-proof plastic material
- Universal wet mopping system used by operators with different approaches, who have the possibility to work with their favourite method (strap tape system, pockets, flaps, pockets and flaps) by means of one ergonomic, hygienic and handy single product
- Quick and easy fixing and release of the mop: it assures a considerable working time reduction and less effort in comparison with traditional cleaning systems
- 100% touch-free system: no use of hands while fixing and releasing the mop, avoiding the risk of cross contamination and ensuring maximum hygiene
- · Highest ergonomics: the operator always works in a maximum ergonomics without bending or assuming a wrong posture
- It is equipped with an articulated joint for a 360° performance
- · Universal screw that allows the use of any kind of handles with diameter from 20 to 24 mm

Use with ErgoSwing system handle, code 0000AM3045 - Learn more about ErgoSwing in the handle section

APPLICATIONS

Mop holder for the wet mopping of floors by using mops with micro flaps.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Universal product suitable to be used with flat microfibers and wet mopping system based either on pre-soaking or soaking "on demand" on the trolley or a system with wringer (allowed for specific needs)

ECO-FRIENDLY PRODUCT

Product made of separable materials and, consequently, recyclable at the end of its life Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Manufactured of high-quality material: resistant to impact and frequent use
- Universal wet mopping system used by operators with different approaches, who have the possibility to work with their favourite method (strap tape system, pockets, flaps, pockets and flaps) by means of one ergonomic, hygienic and handy single product
- Quick and easy fixing and release of the mop: it assures a considerable working time reduction and less effort in comparison with traditional cleaning systems
- 100% touch-free system: no use of hands while fixing and releasing the mop, avoiding the risk of cross contamination
- · Highest ergonomics: the operator always works in a maximum ergonomics without bending or assuming a wrong posture
- · Ergonomic joint that allows easy access to areas that are difficult to reach
- The ErgoSwing system has been designed to accommodate movement in an S-shape, resulting in less fatigue and higher productivity
- The use of the holder together with the handle with turning grips, code 0000AM3045, significantly reduces wrist movements compared to traditional systems, preventing the onset of work-related illnesses

MATERIAL

Polyamide and acetal resin

- 100% touch-free system: no use of hands while fixing and releasing the mop, avoiding the risk of cross contamination
- Highest ergonomics: the operator always works in a maximum ergonomics without bending or assuming a wrong posture
- Uni-Connect system that allows you to quickly and easily connect the same handle to any cleaning tool, quickly switching from one tool to another (mop holder, window squeegee, duster...)
- Lock System allows to block the side moviments of the mop holder and it guarantees the maximum adherence to vertical surfaces for better cleaning results. This system can be switched on and off by simply pushing up or down its small lever (locking device) with one's foot, without the use of one's hands and without bending any more
- Jointed articulation for full 360° rotation allowing easy access even to hard-to-reach areas
- · Can be used with any 23 mm diameter handle with hole

APPLICATIONS

Mainly used for wet mopping of medium dirty floors (in hotels, houses, offices, hospitals, etc). To use with Globo mop holder.

ECO BOX 🎾

ECO-FRIENDLY PRODUCT

100% solar-powered textile production

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environ-mental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- · Natural highly absorbing fiber that keeps dirt, releasing it only during the washing of the mop
- Cut yarn outside to avoid yarn getting caught in any obstacle in the cleaning area
- · Looped end yarn grants a longer life of the mop thanks to its special structure and avoids fraying and linting
- Made in Italy
- · Latex-free product

MATERIAL

Yarn: 70% cotton, 30% polyester Support: polyester Flaps: polyurethane

LIFE CYCLE

Washable max 250 cycles if washing instructions and warnings are respected

CARE AND MAINTENANCE

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener Always a pre-wash cycle in cold water without detergent to remove any residue of chemical solution We suggest to use the specific net bags for the mop washing

WASHING INSTRUCTIONS

SUGGESTED washing temperature: 60° C

Bleaching possible - Do not use chlorine or bleach

 \times No ironing

Do not dry clean

Do not use softener Use alkaline detergents with Ph < 11

ECO BOX 🎾

ECO-FRIENDLY PRODUCT

100% solar-powered textile production Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Innovative wet mopping system thanks to the combination of three different textile yarns: microfibre, cotton and polyester. The structure of these three yarns assures maximum results in cleaning.
- Thanks to its structure, microfibre multiplies the amount of yarns, which come in contact with the floor. Consequently the capacity to pick up dirt is much more higher than normal systems
- · Cotton improves the mop absorbancy and increases the cleaning surface
- Polyester yarn makes the cloths slide on the floor
- · Looped end yarn grants a longer life of the mop thanks to its special structure and avoids fraying and linting
- Made in Italy
- Latex-free product

MATERIAL

Yarn: 70% polyester 30% cotton Support: polyester Flaps: polyurethane

FEATURES

- Tests by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99.7%.
- The microfiber is a synthetic fiber which penetrates deeply into the grooves and pores of floors, captures and removes dust without scratching and retains dirt until its release in the washing machine
- The cleaning action and the long life cycle of microfiber guarantee optimal savings keeping high cleaning standards
- The high absorbency due to its capillary action guarantees a great floor covering, a fast floor drying and less stains
- Used with disinfection systems it removes most of germs and bacteria
- Nylon inserts reduce friction on the floor, provide maximum sliding effect and therefore less effort for the operator
- Optimal dirt release during rinsing
- Made in Italy
- · Latex-free product

- The microfiber is a synthetic fiber which penetrates deeply into the grooves and pores of floors, captures and removes dust without scratching and retains dirt until its release in the washing machine
- The cleaning action and the long life cycle of microfiber guarantee optimal savings keeping high cleaning standards
- The high absorbency due to its capillary action guarantees a great floor covering, a fast floor drying and less stains
- · Used with disinfection systems it removes most of germs and bacteria
- · Its specific composition offers a perfect balance between cleaning capacity and mop friction
- Made in Italy
- Latex-free product

MATERIAL

CLEANING SIDE

Microfibre: 60% Microfibre composition: 100% Polyester Microfibre Denier: 0,56 Other fibers: 40% Fibre composition: 100% Polyester Fabric weight: White fabric 500 gr/sqm - Gray fabric 480 gr/sqm

BACKING

Polyester

SYSTEM Polyurethane flaps

ABSORBENCY

A dry mop absorbs up to twice its own weight

COVERING POWER

The mop can cover about 45-50 m²

LIFE CYCLE

Can be washed max 400 cycles if washing instructions and warnings are followed

CARE AND MAINTENANCE

WARNINGS

Follow carefully the washing instructions and warnings on the detergent packaging (temperature and dosing) before washing We recommend the use of normal detergent for textiles, no fabric softener Always a pre-wash cycle in cold water without detergent to remove any residue of chemical solution We suggest to use the specific net bags for the mop washing

WASHING INSTRUCTIONS

 $\widetilde{\mathbf{0}}^{\circ}$ SUGGESTED washing temperature: 60° C

MAX washing temperature: 95° C

Bleaching possible - Do not use chlorine or bleach

Mechanical drying at low temperature 50°C

Do not dry clean

Do not use softener Use alkaline detergents with Ph < 11

0000TP0303U		0,68	40x10,5	5	0,009	3,62

APPLICATIONS

To be used with the relative line of double-faced mops for dusting, washing and drying of floors and vertical surfaces

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Product suitable to be used with flat microfibers and wet mopping system based on pre-soaking or soaking "on demand" on the trolley

ECO-FRIENDLY PRODUCT

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- Thanks to the particular and innovative structure, it allows to double the square meters of surface or to make two different cleaning operations such as, for exmple, washing and drying
- Made of first quality material Made in Italy
- Thanks to the two sides completely flat and reversible, it is possible to make different cleaning operations with only one mop holder
- · Mop fixing system with central raised part that guarantees to insert the mop in the right position
- Serrated borders assure a stable and non-slip mop fixing
- · Foot-operated pedal which avoids any contact of the mop with the hands
- The Lock System joint for the cleaning of vertical surfaces
- The central joint distributes the pressure uniformly onto the whole surface of the mop holder
- Rubber shock absorbing edge to avoid marks on the surfaces

MATERIAL

Polypropilene and rubber thermoplastic

Ideal for industrial floors, single-fired tiles, stoneware and woods with a medium degree of dirt

APPLICATIONS

Double-faced mop ideal for the wet mopping of all kind of floors. Designed to be used with Duo Face® mop holder. It can be used with pre-soaking with Top-Down® hermetic buckets, with soaking "on demand" with Equodose® and with wet mopping system with Unilav tool.

ECO BOX 📎

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Reusable Ecolabel (EU) certified microfiber "flat" mop Microfiber denier dTtex ≤ 1 for an efficient water and chemical consumption

ECOLABEL CERTIFIED PRODUCT

Environmental label in compliance with UNI EN ISO 14024 that rewards the best eco friendly products, certifying their low environmental impact throughout their life cycle and qualifying them in the market

ECO-FRIENDLY PRODUCT

100% solar-powered textile production Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

LOW ENVIRONMENTAL IMPACT PRODUCT

The product passed the test for microplastic release during washing and rinsing, carried out according to ISO 4484-1 and 4484-2 by an independent laboratory

FEATURES

- Tests by an independent external laboratory show that the mop, used wet, can remove Coronavirus 229E from steel surfaces with a reduction capacity of 99.9%.
- · Perfectly reversible: with one mop you can double the cleaning operations
- 100% of cleaning surface
- High quality, completely made in Italy material
- More resistant thanks to a special ultrasonic welding of the two mop sides with total absence of seams.
- Mop fixing system with central raised part for an easy and non-slip mop fixing
- Higher hygiene thanks to the lack of pockets and fabric thickness where dirt and bacteria deposit more easily
- Special microfiber especially designed to guarantee cleaning and collection of dirt without giving up smoothness of the mop
- Very good dirt collection
- · Very good dirt release while laundered
- · Fitting floors with friction coefficient up to R9

MATERIAL

COMPLIES WITH THE EUROPEAN GPP GUIDELINES ON THE USE OF ENVIRONMENTALLY FRIENDLY PRODUCTS IN PUBLIC ADMINISTRATIONS

Wet mopping system that guarantees efficiency in the use of water resources and the consumption of chemical products

ECO-FRIENDLY PRODUCT

Product sold in packaging compliant with Legislative Decree 116 of 03-09-2020 concerning the obligation of environmental labeling for correct disposal at the end of use. 99% of the cardboard packaging used by the company is made on average with 80% recycled paper

FEATURES

- · Light, handy and ergonomic thanks to its dosing side grip
- · Simple and quick to use reducing considerably the working hours
- Possibility to regulate the flow of cleaning solution according to the dirt level of the floor, with a saving of the used detergent.
- Refilling bottle available with a capacity of 650 ml or 1000 ml, transparent and graduated in order to check the solution inside. Red, blue, yellow and green screw cap to distinguish the employed detergent.
- Special and innovation mop holder structure that allows to double the square meters of cleaned surfaces with just one mop or to perform two different cleaning operations, such as wet mopping and drying
- Rubber shock absorbing edge to avoid marks on the surfaces
- · Mop fixing system with central raised part that guarantees to insert the mop in the right position
- Versatile thanks to the possibility to replace the bottle in use with others, containing different chemical solutions (colour-coded bottle cap)

MATERIAL

Polypropylene copolymer and aluminium

Belt for Unilav kit

Red plastic-coated bag for dirty mops for Unilav kit

FEATURES

- Easy to use, handy and light
- Fill in the tank with the cleaning solution and push the button to activate the flow of the cleaning solution directly on the floor
- Tank 500 ml that covers a 80 sqm cleaning area
- Patented system to close the filling cap. Double safety lock acting on button and tank and guaranteeing an airtight closure to prevent any loss of cleaning solution if the handle is accidentally dropped
- Frame made of premium quality material, light, stainless and resistant to frequent use. Plastic corner bumpers protect walls and furniture. Its articulated joint allows a 360° performance
- The mop holder strips can be easily replaced and guarantee a total adherence of the mop holder to the mop for better cleaning results
- The microfiber cloth cleaning action and the long life cycle guarantee optimal savings, keeping high cleaning standards
- The high absorbency due to its capillary action guarantees a great floor covering, a fast floor drying and less stains
- The shock-absorbing border guarantees a better protection for baseboards and walls
- Autoclavable dosing jug, resistant to temperatures from -10 to + 120° C. Very sturdy with drip spout. Capacity 500 ml

MATERIAL

Handle: aluminium, stainless steel, polypropylene, thermoplastic rubber and acetal resin Frame: aluminium, polypropylene copolymer, polyamide, polyethylene, polycarbonate and ABS Mop: yarn 80% polyester 20% polyamide - polyester backing for strap tape system - Microfiber: decitex = 0,56 Dosing jug: polypropylene
