ErgoSwing ergonomic system

HIGH PERFORMANCES, NO EFFORT

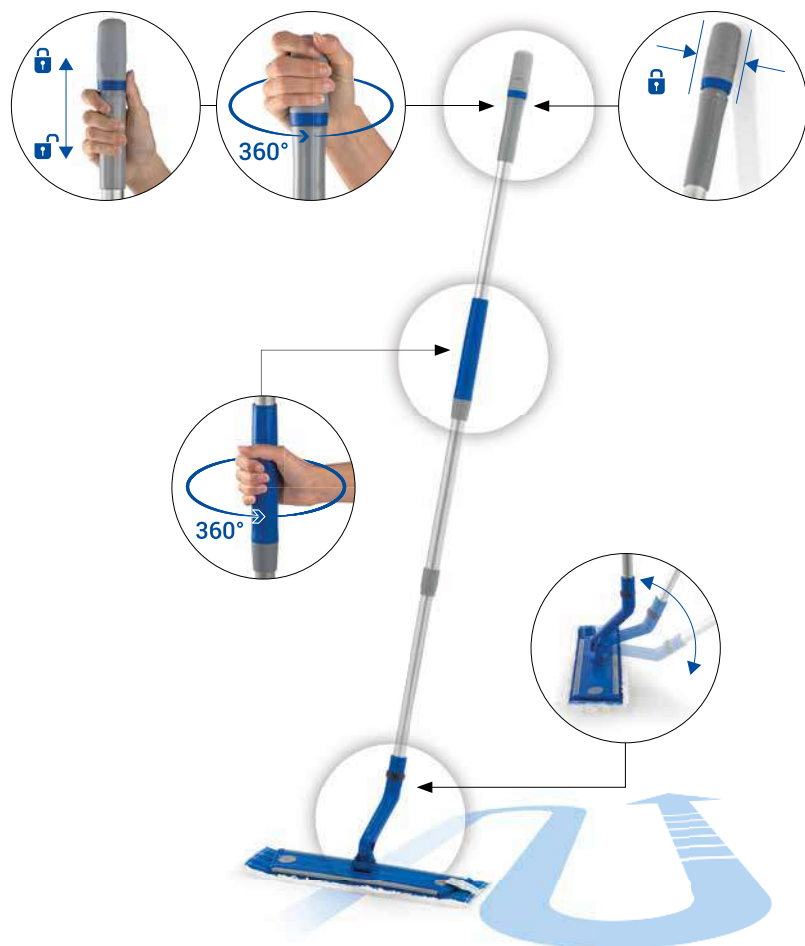

ErgoSwing is the innovative system consisting of telescopic handle with turning grip and mop holder with ergonomic joint designed for **easy S movement**.

The system guarantees **less strain** and **increased productivity**, together with better floor cleaning performance.

- **ERGONOMIC:** 360° rotation hand grips for easier movement and sturdy grip
- **SAFE:** the rotation locking mechanism allows to safely place the tool
- **EFFICIENT:** the system offers optimum performance, with significantly less effort required by the operator
- **INTUITIVE:** it features a simple and clear design that makes it particularly easy to use
- **COMFORTABLE:** comfortable and pleasant to use, it ensures the psycho-physical well-being of the operator
- **TELESCOPIC:** the adjustment of the length of the telescopic handle up to the chin helps a correct posture during cleaning operations.

PAT PENDING

The rotation mechanism of the upper handle can be locked in order to place the tool safely.

ErgoSwing easily cleans even the most difficult to reach places.

HANDLES

WARNING SAFETY SIGNS

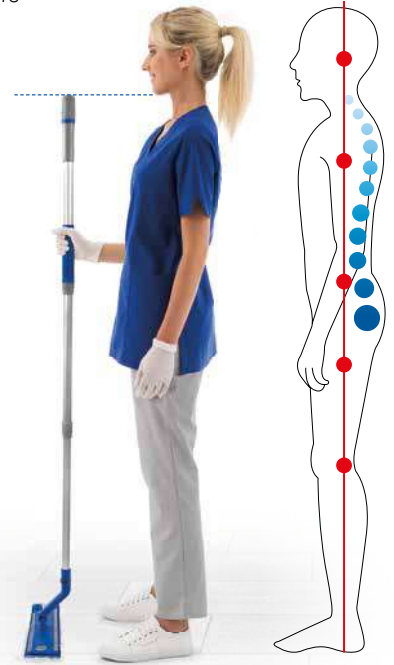

CORRECT POSTURE

Continuous improper posture is one of the main risk factors in the appearance of disorders and pathologies affecting the musculoskeletal system over time.

ErgoSwing is designed to **ensure the maintenance of correct posture** while cleaning floors:

- the neck and the trunk remain in a symmetrical position
- the arms do not assume uncomfortable positions
- the shoulders are not forced to elevate
- the elbows are not subjected to extreme flexing or extension
- the forearms are not required to rotate in an extreme manner
- the knees and ankles remain in a neutral position

EFFORTLESS

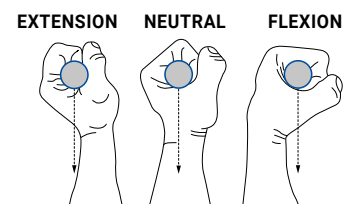

The use analysis found that **the effort made by operators while using ErgoSwing is significantly lower** than that of standard systems.

The notable reduction in effort leads to less fatigue and an increase in operator well-being, resulting in **higher productivity**.

PROVEN ERGONOMICS

In the long term, repeated wrist strain can cause muscle-skeletal issues and pathologies. The ErgoSwing system use analysis conducted by Humana Consulting demonstrates a **significant reduction in wrist bending and extension** when compared with traditional systems: ErgoSwing allows the user to significantly remain below the maximum tolerance area (45°), **preventing the onset of work-related illnesses**.

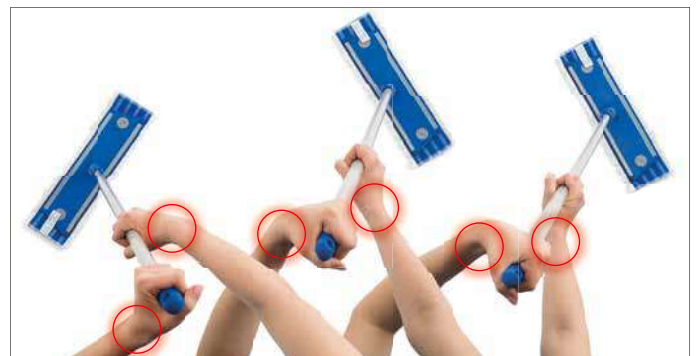

WRIST MOVEMENT WITH THE ERGOSWING

ErgoSwing limits wrist movement, thus **reducing effort**

WRIST MOVEMENT WITH STANDARD SYSTEMS

Standard systems force the wrist to fully extend

Drop: tank handle

Thanks to Drop floor wet mopping is **easyr**, **quick** and **efficient**:

- **Cleans** and **sanitises** every surface **in an instant**
- Lightweight, handy and **easy to use**
- **Prevents spillage** of cleaning solution

SMART DESIGN

Its tank has a 500 ml capacity and can be easily filled by means of a specific jug

The practical flap with rubber gasket assures an airtight seal

The ring, with a patent pending closing system of the tank, prevents from accidental spillage

The push button allows you to activate the immediate dispensing of the cleaning solution

The three nozzles allow the cleaning solution to exit directly onto the surface to clean

It is possible to clean easily also the most difficult to reach areas thanks to its compact size

ErgoDrop: ergonomic tank handle

ErgoDrop combines the advantages of the professional Drop system with those of the innovative ergonomic ErgoSwing system, ensuring **maximum results with minimum effort**.

- Designed to **safeguard the operator's health**
- **It makes cleaning easier**, considerably reducing efforts
- **It assures high performances** and increases productivity
